

COMPONENT 1: ENTREPRENEURSHIP DEVELOPMENT							
Increase in tri-partite linkages	Target	Achieved	Target	Achieved	Target	Achieved	Narrative
	MH	MH	FH	FH	CH	CH	
Number of hh linked							
Number of hh with productive business linkages							
Number of hh (growers) who become out-grower managers							
Number of hh in out-grower schemes							
Improved knowledge in entrepreneurship, business and management skills							
Number of hh who have started businesses							
Number of hh with profitable businesses							
Number of hh with businesses that have action business plans							
Number of hh with businesses keeping records and planning							
Number of hh with 2 or more product/service lines for enterprises							
Number of hh with registered/licensed businesses							
Number of hh who venture into non-petty formalized business							
Number of hh who are business mentors							
Increase in HIV/AIDS awareness among target groups							
Number of hh with sustainable functional linkages to HIV/AIDS service providers							
Number of peer education outreach programmes conducted by trained group peer educators.							
Increase in awareness, knowledge and linkages regarding savings and investments.							
Number of hh accessing credit from group savings							
Number of hh who are members of savings groups							
Number of hh accessing credit from financial institutions							
Number of hh on saving schemes							
Number of hh investing							
Other information on investments and savings							
Total value borrowed in cash and in kind (Kwacha)							
Total value of investment made (Kwacha)							

Total amount repaid at the end of agreed debt period (Kwacha)							
---	--	--	--	--	--	--	--

Component 2

Increase in knowledge, skills in non-traditional farm enterprises (agro forestry, apiculture, aquaculture, etc)							
No of hh with woodlots							
Type of trees in woodlot							
No of trees in woodlots							
No of hh with tree nurseries							
Types of seedlings grown							
Number of hh with Apiaries							
Amount of harvest from Apiaries (Kg, honey or wax specify under narrative)							
No of hh with fishponds							
Fish harvest (Kg, specify type of fish under narrative)							
Increase in knowledge in improved LM&CF technologies & practices among SSFs							
Number of hh practices CF							
Size of fields under CF practices							
Increase in number of adaptive research by farmers, buyers and processors							
Type of techniques from adaptive research							
No of hh adopting technologies from adaptive research							
Increase in knowledge about land use rights among women and youth under traditional system							
Number of hh with written community agreements on customary land utilization							
No of hh with secure improved access and user rights							
Increase on awareness on HIV/AIDS and coping strategies							
Number of hh adopting labour saving practices							
Types of labour saving practices adopted							
Increase in knowledge about preparation of nutritious and diversified food							

Number of hh adopting improved methods of utilising and preparing nutritious foods						
Types of improved methods of utilising and preparing nutritious foods adopted						

Component 3

Improved and economically focused community-based infrastructure identified, approved, constructed and/or rehabilitated	Target	Achieved	%Achieved	Narrate where applicable
No. of SSF groups that meet obligations including conducting EIA				
Increase in knowledge and skills on management, utilization and maintenance of infrastructure by the concerned group				
No. of maintenance committees in place				
No. of community maintenance plans executed				
No. of groups infrastructure maintenance accounts				
Increase in SSF groups knowledgeable about other infrastructure support funds				
No. of Supported camps getting access and becoming eligible for infrastructure support from other sources	10	7		
No. of Supported groups becoming eligible for infrastructure support from other sources	0	0		

COMPONENT 4: SEED

Increase in knowledge about accessing parent seed by seed growers	Target	Achieved	Target	Achieved	Target	Achieved	Narrate
	MH	MH	FH	FH	CH	CH	
No. of hh who are seed growers who access parent seed timely							
Improvement in knowledge about seed production and distribution systems							
No. of seed outlets created by hh type							
Increase in knowledge about use of improved seed varieties and planting materials including traditional/indigenous crops.							
Number of hh using improved seeds							
No of hh growing seed							
Quantity of seed produced (Kg)							
Types of seed produced-specify % of quantity per type (Narrate)							
Increase in the number of improved linkages between farmers and actors in the seed industry							
Number of hh linked to seed companies							

Increase in knowledge on seed quality control by SCCI and selected MACO staff and their capacity to monitor seed quality in ASP districts in a sustainable manner							
Number of hh with tested and certified seeds							
Qty of tested and certified seed held by hh							
Type of tested & certified seed held by hh (Narrate)							
Increase in knowledge and skills in conservation and use of landraces							
Number of landraces conserved by hh							
Type of landraces conserved by hh (Narrate)							
No. of hh using cleaned landraces							
COMPONENT 5: CAPACITY BUILDING OF SUPPORT STRUCTURES							
Improvement in knowledge about PEA and business management among public, local & private organisations	Target	Achieved	Target	Achieved	Target	Achieved	Narrate
	MH	MH	FH	FH	CH	CH	
Number of hh accessing participatory extension from SS		30					
Creation of improved Agriculture Information Centres (AICs) and establishment of sustainable linkages to viable information sources							
Number of hh that receive relevant information from SS on a timely basis							
Number hh listening to radio programmes broadcasted on ASP activities in the past two weeks							
Number of hh who visited information centers in the past one month							
Improvement in capacity of local authorities to provide services							
Number of hh who request for information from SS							
Number of hh who received information from SS							
No of hh who are members of functional DACs							
Improvement in knowledge and application of democracy, good governance and human rights among hh and formation of farmer associations							
Number of hh in leadership in groups							
Number of hh who are members of farmer associations							

ASP Outreach programme at Basic schools developed							
Number of hh who obtain information on ASP concepts from schools production unit
